PREFACE

THE LIST of actions affecting public lands in Alaska contained in this publication is a supplement to an Atlas of "Alaska Federal Land Withdrawals and Reservations." It is a documentation of the administrative orders and acts of Congress that have effected, modified, or revoked Federal land withdrawals and reservations in Alaska.

THE KEY which coordinates the list with the atlas of withdrawals and reservations is the reference number shown in connection with each of the withdrawals and reservations outlined on the various maps of the atlas. Each withdrawal and reservation location is identified by a series of number and letter symbols, the first of which is a reference number to the Executive Order, Public Land Order, Secretarial Order, Presidential Proclamation, or other authority which established it or modified it in any way. Those numbers are shown in the first column of this publication.

THE ACTIONS affecting withdrawals and reservations are listed chronologically. The listing also indicates the purpose of each withdrawal and reservation and which Governmental agency has jurisdiction over it. The general location and acreage of each is also given, thus increasing the utility of the list as a separate record from the withdrawal atlas. It also provides an historical summary of withdrawal and reservation activities in Alaska. It is thus a unique source of information for study of withdrawals and reservations of land as an important tool of public land management in Alaska.

ALL DATA are as of June 30, 1958. Additions may be made at the end of the list.
